EDUCATION

Hong Kong Baptist University Faculty of Science School of Business Bsc, Business Computing and Data Analytics First Class Honors 3.57/4.00 Achieved: Chiang Chen Industrial Charity Foundation Scholarship · Outstanding Student Scholarship Dr Roger Wong Scholarship · HKBU SEED Fund - Virginia and Stanley Yim Student Development Fund President's Honour Roll (Yr 1 Sem 2, Yr 3, Yr 4) · Dean's List (Yr 1 Sem 1, Yr 2)	Hong Kong Class of 2026
Leiden University Faculty of Science Law School Study Abroad	The Netherlands 2025 Spring Semester

WORK EXPERIENCE

Hospital Authority Intern, Information Technology & Health Informatics Division (IT&HID) - Automated firewall scheduling across Juniper & Fortinet devices using Python scripts, eliminating ~6 hrs/week of manual security operations intervention. - Deployed a real-time ELK Stack WAF dashboard for the Healthcare Voucher System, cutting incident investigation time for 10+ system admins by an estimated 40%. - Analysed firewall logs and performed pattern matching for cybersecurity events to support incident monitoring across the eHealth system.	Hong Kong Jul 2025 - Aug 2025
China Mobile Limited (Hong Kong) Intern, Customer Service Digital Support - Trained NLP models in Python (pandas, scikit-learn) that automated 30% of customer inquiries end-to-end, saving ~800 agent-hours/month. - Built data preprocessing pipelines to clean inquiry transcripts and extract features for Cantonese Voice Bot model training, improving classification accuracy by ~15%. - Developed 3 FINEBI dashboards used daily by 30+ CSRs, consolidating 5+ data sources and reducing manual reporting time from 2 hrs to under 20 mins.	Hong Kong Aug 2024 - Dec 2024
Buildings Department, HKSAR Temporary Clerk Digitised 200+ historical contractor records into a structured database, and applied Excel functions for data categorisation, reducing manual lookup time by ~50%.	Hong Kong Jun 2022 - Aug 2022
Self-Employed Worker Private Tutor Designed personalised lesson plans for 8+ students targeting DSE and TSA examinations, achieving consistent grade improvements across cohorts.	Hong Kong Jul 2021 - Dec 2024

PROJECTS

ESG News, Sentiment & Market Risk in HK (Python · OLS · GDELT · PowerBI) Final Year Project (First Class Honours thesis) — constructed daily ESG news volume & sentiment indices from 79,000+ GDELT articles for the HK market. - Designed 5 OLS regression models (contemporaneous, predictive, crisis-interaction, asymmetric) linking ESG sentiment to HSI 20-day realised volatility over 2019–2024. - Found negative ESG sentiment significantly associated with higher HSI volatility; effect amplified during COVID-19; built interactive PowerBI dashboard for individual investors.
Discord Bot, with a core feature of user management (Java · API Integration) Built a bot automating registration via unique-code CSV verification and enabling lookup of test scores & seat assignments.
Personal Website (JavaScript · HTML/CSS) Built a fully responsive personal website in JavaScript/HTML/CSS showcasing project portfolio, with custom UI interactions and hover effects - rainliu.netlify.app

CERTIFICATIONS & SKILLS

Programming Languages: Python, SQL, R, Java, JavaScript, HTML/CSS

Data: pandas, NumPy, scikit-learn, statsmodels, Matplotlib

Tools: PowerBI, FINEBI, ELK Stack, MySQL, RStudio, Excel

Certifications & Languages: IELTS Overall 7.5/9.0, ABRSM Grade 8 Piano, Cantonese · English · Mandarin
